LISTING OF CLAIMS

Claims 1-9 (Cancelled)

- 10. (New) A combustible shaped ammunition part wherein the combustible shaped ammunition part contains an erosion-reducing admixture, comprising an erosion-reducing agent which is an oxide of one of the elements of rare earth or one of the elements of the 6th subgroup in the periodic system, or a poly oxy methylene (POM), wherein the shaped ammunition part contains 2 to 15% of one or more erosion-reducing agent(s).
- 11. (New) A combustible shaped ammunition part according to claim 10, wherein the erosion-reducing agent is La₂O₃, CeO₂, or Y₂O₃.
- 12. (New) A combustible shaped ammunition part according to claim 10, wherein the erosion-reducing agent is MoO₃ or WO₃.
- 13. (New) A combustible shaped ammunition part according to Claim 10, in the form of a propellant case or a propellant charge container.
- 14. (New) A combustible shaped ammunition part according to Claim 11, in the form of a propellant case or a propellant charge container.
- 15. (New) A combustible shaped ammunition part according to Claim 12, in the form of a propellant case or a propellant charge container.
- 16. (New) A combustible shaped ammunition part wherein the combustible shaped ammunition part is in the form of a propellant case or a propellant charge container and contains an erosion-reducing admixture, comprising an erosion-reducing agent which is an oxide of one of the elements of rare earth or one of the elements of the 6th subgroup in the periodic system, or a poly oxy methylene (POM).

- 17. (New) A combustible shaped ammunition part according to claim 16, wherein the erosion-reducing agent is La₂O₃, CeO₂, or Y₂O₃.
- 18. (New) A combustible shaped ammunition part according to claim 16, wherein the erosion-reducing agent is MoO₃ or WO₃.
- 19. (New) A combustible shaped ammunition part according to claim 16, wherein the shaped ammunition part contains 2 to 15% of one or more erosion-reducing agent(s).
- 20. (New) A combustible shaped ammunition part according to claim 17, wherein the shaped ammunition part contains 2 to 15% of one or more erosion-reducing gent(s).
- 21. (New) A combustible shaped ammunition part according to claim 18, wherein the shaped ammunition part contains 2 to 15% of one or more erosion-reducing agent(s).
